

DOE Training and Office of Personnel Management Training Guidelines

In searching for information on Department and Federal training policy and guidelines, the following websites can be of help. Training, however, is a program, not just a set of authorities, and works with in a context that includes Federal procurement authorities, personnel authorities, IT network capabilities for on-line training, interagency collaboration, and those business and educational enterprises that make available and offer to deliver training services. For additional information, please contact Cheri Dent on 202-586-9556.

Department of Energy Learning & Development and Training Policies and Guidelines

To go to Department Training directives ,you need (1) to go to the DOE directives homepage at the link below, (2) click on [Current Directives](#), (3) under [New Series Directives](#) click on [Series 300](#), and then (4) scroll down to the following:
